Opinion on the essential requirements

Article 3.1a) Health and Safety	no remarks
Article 3.1.b) electromagnetic compatibility	no remarks
Article 3.2 effective use of the radio spectrum	no remarks

Manufacturer(s)	Radio Activity S.r.l. Via Ponte Nuovo, 8 I-20128 Milano (MI), ITALY
-----------------	---

System description

Frequency band(s)	68.000 - 88.000 MHz
Channels/ Channel spacing	up to 200 / 12.5, 20, 25 KHz programmable
Transmit power	28.65 W
Type of modulation	4FSK/GMSK/PM/FM
Type of antenna	connector
Mode of operation (simplex/duplex)	simplex/duplex
Comments	<p>Please note national restrictions and licence requirements</p> <p>In the case of radio equipment using frequency bands whose use is not harmonised throughout the Community, the manufacturer or his authorised representative established within the Community or the person responsible for placing the equipment on the market shall notify the national authority responsible in the relevant Member State for spectrum management of the intention to place such equipment on its national market. This notification shall be given no less than four weeks in advance of the start of placing on the market and shall provide information about the radio characteristics of the equipment (in particular frequency bands, channel spacing, type of modulation and RF-power) and the identification number of the notified body referred to in Annex IV or V.</p>

Equipment, which at the time of placing on the market contains as an integral part a R&TTE component, which should not be removed by the user, should be marked according to the R&TTE Directive. In addition in its user manual it should comply with the R&TTE Directive and e.g. indicate geographic limitations of use.
